

CS-1862
Examination – Nov - 2022
B.Tech. VI Sem.: Computer Science & Engineering
Android Programming

Time: 3 Hrs

Max. Marks: 70

Min. Marks: 22

Note: Total number of questions are 05. All Questions are compulsory. Each Question has 4 parts (a, b, c, d). Part a, b & c are compulsory while Part d has internal Choice. Assume missing data, if any.

Word limit be observed as follows:

Part a – Max 50 words, Part b – Max 50 words,

Part c – Max 100 words and Part d – Max 400 words.

Word limit NOT to be followed for diagram, numerical, derivation.

- Q.1 (a) Define services in Android operating system. 02
(b) List all attributes to develop a simple button. 02
(c) Explain the procedure of Installing and running applications on Eclipse. 03
(d) Explain Android development framework. 07

OR

Discuss in detail about android application components. 07

- Q.2 (a) What is the purpose of toggle buttons? 02
(b) What are fragments Lifecycle states? 02
(c) Explain various components in user interface. 03
(d) Explain how the lifecycle of an android activity works? Also explain neatly about Absolute and Relative Layouts. 07

OR

Write a program which handles the components Checkboxes, Spinners, Dialog and pickers. 07

- Q.3 (a) Explain the Exception handler in android. 02
(b) Discuss about Image views to display pictures. 02
(c) Discuss various types of threading in Android system. 03
(d) Explain about displaying long lists and their overview. 07

OR

Explain the way of creating notification and displaying toast. 07

Q.4 (a) Describe about graphics and multimedia in android applications.

(b) Explain in short about the Google android platform.

(c) Explain various ways of using content providers in database transactions.

(d) Create a user registration application that stores the user details in a database table.

03

07

OR

Develop an application to store student details like roll no, name, branch, marks, percentage and retrieve student information using roll no. in SQLite databases.

07

Q.5 (a) Enlist the steps to publish the Android application.

02

(b) Discuss Developer console with its purpose.

02

(c) Develop a program to send an email.

03

(d) Briefly discuss about deploying APK Files.

07

OR

Write a program to locate user's current location and showing location on the Map.

07

Examination – Nov. – Dec. - 2019

B.E. - VI Sem : CSE/IT

Android Programming

Time : 3 Hrs

Max. Marks : 70

Min. Marks : 22

Note: Total number of questions is 05. All Questions are compulsory. Each Question has 4 parts (a, b, c, d). Part a, b & c are compulsory while Part d has internal Choice. Assume missing data, if any. Word limit be observed as follows:

Part a – Max 50 words,

Part b – Max 50 words,

Part c – Max 100 words and

Part d – Max 400 words.

Word limit NOT to be followed for diagram, numerical, derivation.

Q.1 (a) What are the basic features of Java?

02

(b) What is abstract class?

02

(c) What is Emulator?

03

(d) Explain AVD in detail.

OR

What are the basic steps to create new app in android?

07

Q.2 (a) What is intent in android?

02

(b) What is the minimum requirement of hardware to develop android app?

02

(c) How to decide API level for any android project?

03

(d) Write a java code to display current time & data on screen.

07

OR

How data transfer from one activity to another in android programming.

07

- Q.3 (a) What is an activity in android? 02
- (b) What is the role of XML in android project? 02
- (c) What is adapter in android? 03
- (d) What is android manifest. XML file? What kind of information is stored in it? 07

OR

Write a java code for make use of list view to display list of names. 07

- Q.4 (a) Define menu & its type. 02
- (b) What is density independency? 02
- (c) What is recycler view? 03
- (d) Explain android UI design. Also list out all the components of UI design of android. 07

OR

What is content provider? List out different built-in content providers provided by android. 07

- Q.5 (a) What is apk file? 02
- (b) Define SQLiteOpenHelper. 02
- (c) What is Toast? 03
- (d) What is SQLite database? Explain methods for creating & updating database records with example. 07

OR

Explain notifications. What is the use of notification 07
